[Odd ~~/ Even / Compact~~] Semester Year 2022/2023	

- **Project Title**

  Movie List Project BD02

- **Introduction**

Basically, most of our project is following the design that was already given in the question. Perhaps, I have added a 'movie' page by myself, even though the design or capture was not given in the question. For the carousel slider, I used the slider that is paused/frozen every time we hovered the slider image (to enable user to pause the slider so they can read the description of the movie). So overall, the flow of our project is the same as the one that is captured in the question.
